# Ancient Adventurers (Stone Age to Iron Age) Autumn 2019

## Art and Design Technology

The children will tackle a range of Stone Age Art challenges, which embrace their creativity. They will use different material and will have their own sketchbooks to explore their ideas.

## History

The children will become time travellers and go on many adventurers. They will start by travelling to the Stone Age and then after half-term venture to the Bronze and Iron Age, learning all about the changes in Britain over this time.

## French

**Bonjour!** Children will be introduced to French, where they will learn to understand and respond to spoken and written language. They will learn to speak with increasing confidence, fluency and spontaneity using, stories, songs and rhymes. They will also be taught the grammatical structures of the language to aid their accuracy of pronunciation.

## Computing

The children will have weekly computing lessons using the Computer Suite and other technological devices. The children will be learning a range of key skills and exploring how to use Chromebooks. They will also be learning about e-safety.

## Physical Education

PE will be taught twice a week. There will be one indoor and one outdoor lesson. The focuses this term will be Tennis and Dance for the 1st part of half term.

## English

The children will develop their key writing skills through fiction and non-fiction units. They will look at relevant texts to learn from their vocabulary, structure and grammar. They will use what they have learnt to write for a range of purposes and different audiences. They will be able to share their work and reflect on how to improve it. There will be a particular focus of spelling, punctuation and grammar.

## Maths

In Maths, the children will develop their number and calculation skills. Focus will be placed on identifying the value of each digit in 2 and 3 digit numbers as well as representing these numbers in a variety of ways. Physical apparatus, drawing and formal recording will be developed to support the children's reasoning and problem solving skills. Throughout the term the children will continue to develop and secure their mental recall of addition facts and facts for the 2, 5 and 10 times tables before moving onto the 3, 4 and 8 times tables.

## Science (School of Rock!)

Science will be taught every other week and will give the children the opportunity to become forest explorers. The children will be learning about the different trees, plants and animals that you find in a range of forests and making comparisons between different habitats.
