

Parents/Carers

Next week's 'craft' pack is slightly different. Mrs Gilbert has a challenge for you...

She would like you to grow the tallest sunflower.

Email Mrs Jones daniellejones@mpsplymouth.net with your child's name and class to sign up to receive your pack of sunflower seeds which you can then grow at home. Packs will be given to the first 100 families. There will be at least 4 seeds per pack and so you will only need one pack per family. If you do not have a pot or compost please let me know when you apply but if you are able to, please use your own.

The growing instructions will be in your pack and once your plants are growing, perhaps you can make a diary of its progress and include any tips that may help others in the future. Maybe you have had to protect it from slugs or the frost or alter how many times you have had to water it.

The challenge is for you to grow the tallest plant by the end of the summer. Please send a photo of your sunflower along with its height by September 7th 2020 to janegilbert@mpsplymouth.net

You are welcome to be in the photo as long as you are happy for it to be placed on social media.

Good luck and have fun,

Mrs Jones and Mrs Gilbert
