MONTPELIER PRIMARY SCHOOL - SELF EVALUATION SUMMARY OCTOBER 2020

Overview

MPS is much larger than most primary schools where the proportion of pupils eligible for the pupil premium is lower than average. Most pupils come from White British backgrounds. The proportion of disabled pupils and those who have special educational needs supported at school action is in line with the national average, as is the proportion of pupils supported at school action plus or with a statement of special educational needs/EHCP. The school meets the government's current floor standards. The last Ofsted inspection took place in September 2019, one of the first on the new framework, and was graded as Good across all areas. The Ofsted team saw many strengths in the school, including the accuracy of its self-evaluation.
