'Earth Action Day'

Dear parents/carers,

On Thursday March 26th we are going to be having a whole school 'Earth Action Day'. The aim of the day will be to promote a positive message about our school community's role in looking after our planet by giving the children practical actions to take whilst also developing their love of and connection with nature. On the day, the children will visit different outdoor 'bases' around the school site and take part in activities including planting trees, building bug hotels and baking bird food! We have over 100 trees which have kindly been donated by the Woodland Trust so we are going to be busy!

What to wear?

On the day children will need the following:

- Appropriate clothing for the weather which is ok to get muddy (**come to school wearing it**).
- A waterproof coat.
- A change of outdoor footwear (either wellies or trainers) in a carrier bag.

We do have spare waterproof and wellies so please speak to class teachers if you would like to borrow some.

Plastic Bottles and Sticks

We will need lots of plastic bottles and sticks to use when building our bug hotels. If you have either, please can children bring them in on the day with them.

If you have any further questions, please either come and see myself or email me using-class2M@mpsplymouth.net.

We hope you are as excited about the day as we are and thanks it advance for your support with it.

Best wishes,

Miss Nicholls (Outdoor Learning Lead)
